

# STUDY CENTER MANAGEMENT SYSTEM

- **What are study centers??**

- Study centers aim to provide a suitable environment for self-study. The idea behind 24/7 study centers is to provide students with a comfortable and safe environment to study, collaborate and learn at their own pace, regardless of their schedule.
- These are often used by aspirants of govt/competitive exams. These study centers offer facilities such as AC, Wi-Fi connectivity, Mineral water, access to reading materials, Lockers etc.

- **What we do??**

- As per our research, The management of these study centers are being done on pen-paper leading to inefficiency and inconvenience to the students.
- We are here to provide a digital solution to this problem through our Study center management software.
