

# STUDY CENTER MANAGEMENT SYSTEM

## Version 1

- As an admin, I can configure this software for a particular center as per their requirements.
  - As an admin,I can create a study center owner account and hand over the credentials.
  - The admin gets access to his center dashboard once he logs in to view all the stats and related data.
- As a student, he can sign up and sign in into the application.Thus allowing him to select seats according to his need and duration and pay for the same inorder to confirm his seat .
  - The student can also track the count of the days remaining of his subscription and renew his subscription.
